

KUNAL DONGARE

Full Stack Engineer | React, React Native, Node.js, GraphQL

Pune, India | 9158405298 | kunal.dd.dongare@gmail.com | linkedin.com/in/kunal-dongare-636a85218 | github.com/Kunal1796

PROFESSIONAL SUMMARY

Full-stack engineer with 2.5+ years of experience owning React, React Native, and Node.js/GraphQL products from architecture to App Store and Play Store release, with apps serving 30k–80k+ users each. Shipped 50+ screens and 50+ APIs, integrated Clover payments, and built an AI agent that cut feature scaffolding time by ~50%. Experienced in product analytics, production support, and direct client communication. Available immediately.

TECHNICAL SKILLS

Frontend / Mobile: React.js, React Native (Expo & CLI), TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, NativeWind, Redux, Zustand, React Query

Backend: Node.js, Express.js, REST APIs, GraphQL, MongoDB, SQLite, Redis, Temporal, JWT, OAuth

Cloud / Infra: AWS (Lambda, Cognito, S3, CloudWatch), Firebase (incl. Cloud Messaging), Docker, Railway, Render

Analytics & Integrations: Mixpanel, MoEngage, AppsFlyer, Clover payments (SDK + webhooks)

Testing & Tools: Jest, Chrome DevTools, Lighthouse, Git, Postman, Swagger, JIRA, Confluence, Cursor

WORK EXPERIENCE

Software Engineer, Indexnine Technologies

Jan 2024 – Aug 2026 | Pune, India

All My Sons — Driver Tablet App, Attendance App, Voyager Enterprise Website (80k+ users) | React Native, React.js, Node.js, GraphQL

- Took full frontend and backend ownership of the Driver tablet app and the Attendance Management app, from feasibility and API design through release; published via MDM.
- Built a custom React Native bridge to integrate the Android-only Clover SDK for secure in-app payments.
- Implemented Clover payment flows for the Voyager enterprise website, including webhooks for payment reconciliation.
- Delivered 5–6 major features end to end (frontend and backend) on the Voyager enterprise website and built 2 micro websites from scratch (5 screens each).
- Diagnosed and resolved a high-priority production bug using AWS CloudWatch and Firebase; added push notifications with Firebase Cloud Messaging.
- Received a client appreciation email, the only one from a 35-person team.

Dwellin — Mobile App & Dwellin Pro Connect Web (60k+ users) | React Native, React.js, Node.js, GraphQL

- Delivered 10+ major features in the Dwellin mobile app and owned it through publication on Google Play and the App Store.
- Instrumented user events, funnels, and A/B tests using Mixpanel, Firebase, MoEngage, and AppsFlyer.
- Built the 15-page Dwellin Pro Connect web app from scratch (architecture, auth, routing, components, APIs).
- Reduced mobile app load time by ~20% through API optimization and profiling.

European Athletics — Mobile App & Website (30k+ users) | React Native, React.js

- Built 10–15 screens across the React Native app and React website; shipped to production on iOS, Android, and web.

Engineering Practices & AI-Assisted Development

- Built an AI agent that automates code generation and scaffolding for repetitive features, cutting setup time by ~50% and standardizing component/API patterns.
- Created a Cursor skill for automated code reviews covering type checks, tests, linting, and coding standards.
- Wrote Jest unit tests (85%+ coverage), reducing post-release defects; mentored junior developers and conducted technical interviews.
- Managed sprint tasks and release tracking in JIRA; contributed product insights that led to a Product Mindset Award.

ACHIEVEMENTS

- Product Mindset Award for product insights that led to a business-impactful solution.
- 2nd Runner-Up, Agentic AI Hackathon (Indexnine), as the only all-fresher team competing against 5+ experienced teams.

PROJECTS

- **Hotel Offer Orchestrator** — TypeScript/Express API using Temporal to query two suppliers in parallel, pick the cheapest offer per hotel, and store winners in Redis with price filtering; Dockerized and deployed on Railway. [Live](#) | [Code](#)
- **ACME Salary Management** — Full-stack HR app (React, Vite, Node/Express, TypeScript, SQLite, Zod, Vitest) with server-side pagination over 10,000 employees and pay-insights analytics; deployed on Render. [Live](#) | [Code](#)
- **Durolt Kiosk** — Offline-first React Native locker app; SQLite-backed queue retries unlock commands with the original idempotency key when connectivity returns; Jest, ESLint, tsc checks. [Code](#)

EDUCATION & COURSES

B.Tech, Computer Engineering — Vishwakarma University, Pune

Graduated Jun 2023

Java Spring Boot Full Stack Development — Coding Ninjas

In progress, expected Oct 2026
